# Shortly about AIFM in Cyprus

Cyprus has recently enhanced and updated its legal framework, incorporating industry best practices for the regulation of fund operations. As a result, it presents a strong case for becoming a preferred jurisdiction for establishing or relocating funds and fund management companies.

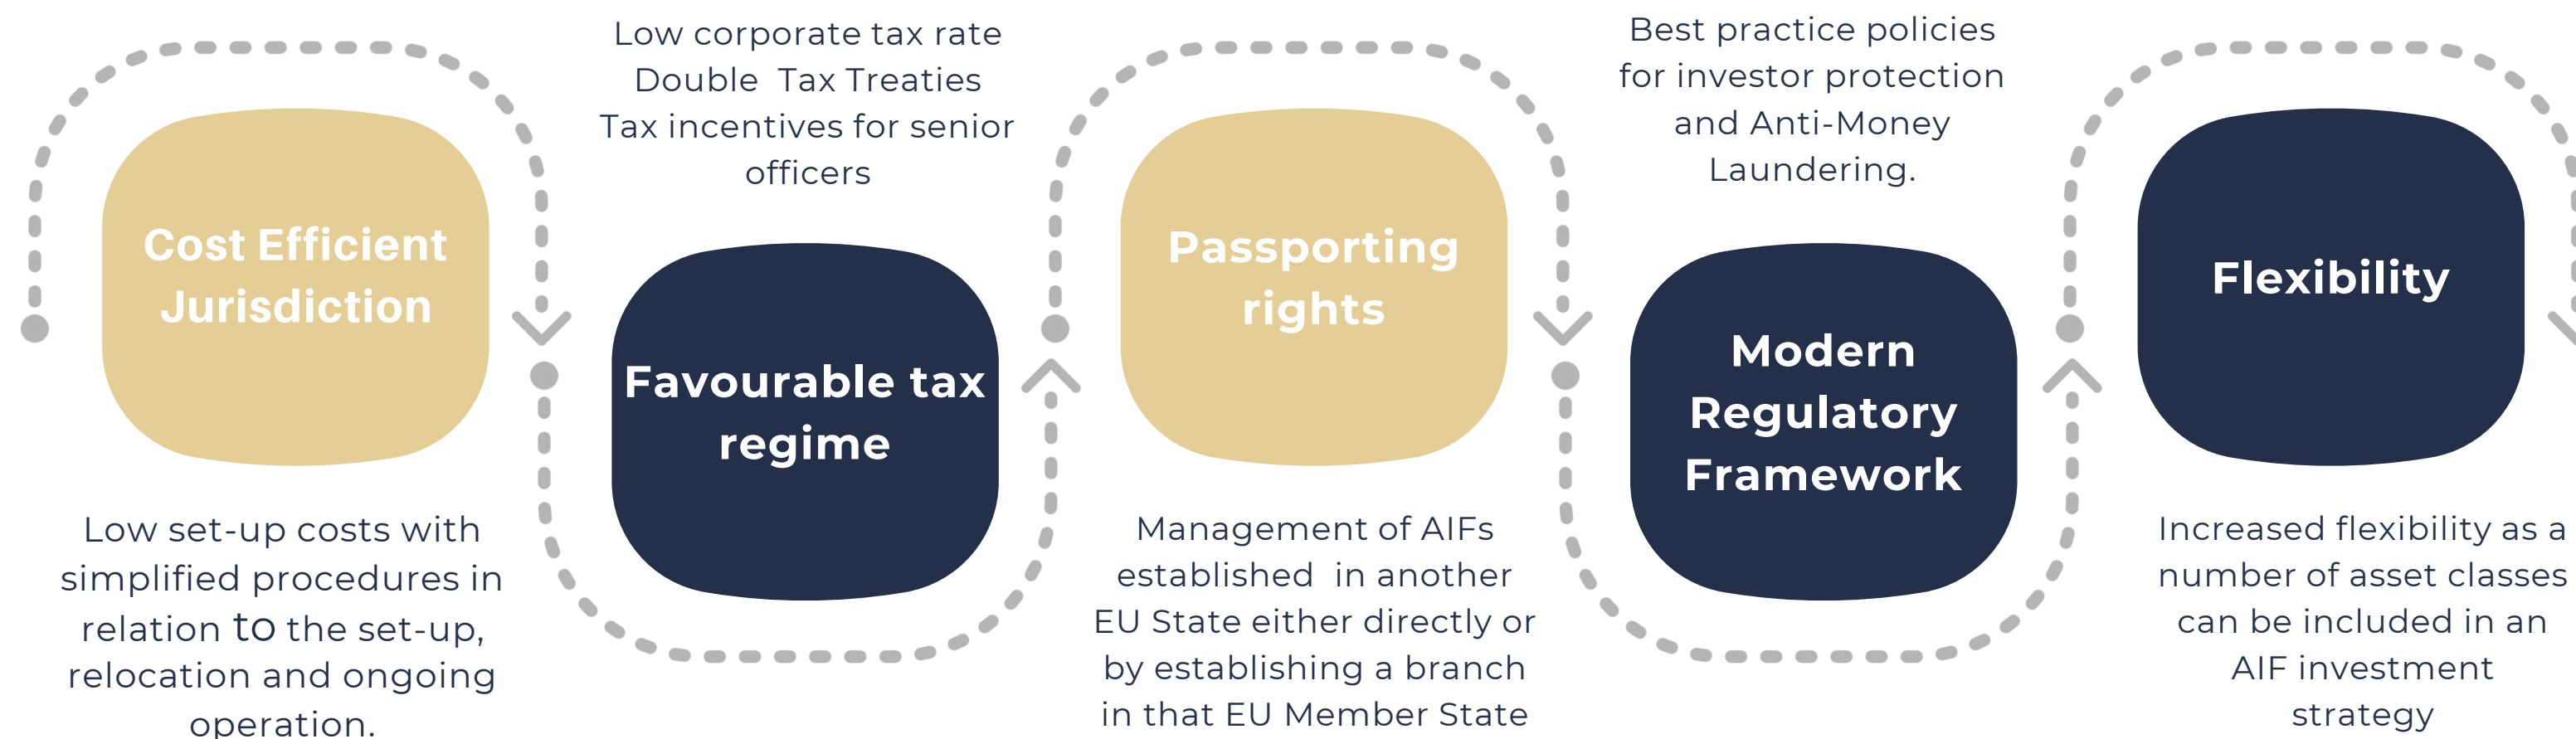

Being an EU member state, Cyprus effectively blends a range of tax-efficient measures found in modern financial centers with the essential infrastructure required for the fund industry. The nation boasts an autonomous judiciary, a highly skilled workforce, a business-friendly atmosphere, and a legal system rooted in common law principles.

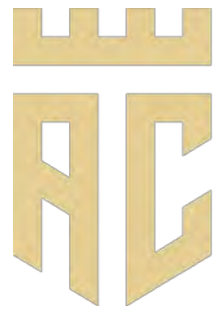

Cyprus was the second country in Europe to transpose the Alternative Investment Fund Managers Directive 2011/61/EU (“AIFMD”) into national law through the ratification of the Alternative Investment Fund Managers Law 56 (I)/2013 (“AIFM Law”), which governs the establishment and supervision of Alternative Investment Fund Managers (“AIFMs”) in Cyprus.

# AIFM Benefits
